

BioMagic Treatment for all Waste Tanks Concentrate

BioMagic has released a new more concentrated version of our RV Toilet & Grey Water treatment. It has been super concentrated to reduce it to half the size and less than half the weight to make it easier to carry and use. (now 500ml has the same number of doses as an old 1Litre)

It is still the most cost effective and environmentally safe product in Australia.

The suggested dose is now 15-20ml and at least an inch of water or enough water to cover the ridges in the base tank In a small toilet or cassette, or 15ml per adult per week in a large holding tank.

For any questions at all please use Free call 1800888205 anytime.

New product

Original product

500ml

BioMagic Treatment for All Waste Tanks Concentrate

This bottle will give approximately 30 doses for any RV toilet and can be used for Grey Water too.
In general use this would give you approx. 12 weeks (3 months) of changing the toilet twice a week and using the rest for grey water treatment.
Weight 550gm
